# 1 License

This software and documentation is Copyright © 2006 Pylon Technical.

READ THIS LICENSE AGREEMENT BEFORE INSTALLING AND USING PYLON LIGHTING COLLECTION. BY INSTALLING THE SOFTWARE, YOU ARE AGREEING TO BE BOUND BY THE TERMS OF THIS AGREEMENT

The complete content of the Pylon Lighting Collection plugin package, including the Software and the Documentation, to be referred to as the Product, is owned exclusively by Pylon Technical. This software may not be distributed, transmitted, sold, or bundled with any commercial package without express written permission from Pylon Technical. Pylon Technical grants you a non-exclusive license to install and use one copy of the Software on a single computer, except as provided for multi-user licenses.

You may not disassemble, decompose, reverse engineer, alter, or apply any method that may expose the source code. You may not rent, lease, or sublicense any part of the Product. You may only transfer the License in its entirety and permanently, provided no copies are retained by you and Pylon Technical is notified about the transfer in writing.

This software is provided 'as-is' and without warranty of any kind, express, implied, or otherwise, including but not limited to merchantability or fitness for a particular purpose. In no event shall Pylon Technical be liable for any damages whatsoever, including, but not limited to, loss of data or profits, arising from the use or inability to use the Product.

Multi-User Professional Licenses can be installed on the same number of computers stated in the electronic mail containing your Pylon Lighting Collection license file. This number must equal the number of seats authorized on your formZ License Installation Code sheet. If it does not, you must not install this software, and you must contact Pylon Technical for a refund, or to purchase additional licenses to make up the difference.

A Replacement License is an update to a previous version of Pylon Lighting Collection you currently have in your possession and you are licensed to use. Under no circumstances will a replacement license be considered an additional license. It is provided for the sole purpose of upgrading your current user's license, whose terms and conditions remain in effect as in the original agreement.

## 2 Installation

### 2.1 Installing Lighting Collection on Windows

1. Quit all applications.
2. Unzip (decompress) the Lighting Collection zip archive. (If you receive the message: "Windows found that this file is potentially harmful. To protect your computer, Windows has blocked access to this file," right click on the zip archive and select 'Properties.' In the resulting dialog, select the 'General' tab, then click 'Unblock' (near the bottom). Unzip again.)
3. Double click on **Pylon Lighting Installer.exe** and follow the prompts. **IMPORTANT NOTE:** When you reach the 'Choose Install Location' page, click on the 'Browse...' button, then select your current formZ installation (e.g., 'formZ RenderZone MP v6.1.0') and click 'OK.'
4. Place your license file inside the newly created Pylon Technical directory:  
**Program Files/formZ/formZ yourCurrentVersion/Plugins/Pylon Technical/**
5. Launch formZ.

(If the plugins do not load, and you are running formZ 6.0 and have never installed 6.1, go to

<http://www.microsoft.com/downloads/details.aspx?familyid=32BC1BEE-A3F9-4C13-9C99-220B62A191EE&displaylang=en>

and download the **Microsoft Visual C++ 2005 Redistributable Package (x86)**. Quit formZ, install the Microsoft Package, then relaunch formZ.)

## 2.2 Installing Lighting Collection on Macintosh

1. If it is open, quit formZ.
2. Unzip (decompress) the Lighting Collection zip archive.
3. Double click on **Pylon Lighting Installer.pkg** and follow the prompts. **IMPORTANT NOTE:** When you reach the 'Select a Destination' page, click on the 'Choose...' button, then select your current formZ installation (e.g., 'formZ RenderZone MP v6.1.0') and click on 'Open.'
4. Place your license file inside the newly created Pylon Technical folder:  
**Applications/formZ/formZ yourCurrentVersion/Plugins/Pylon Technical/**
5. Launch formZ.

## 3 Documentation

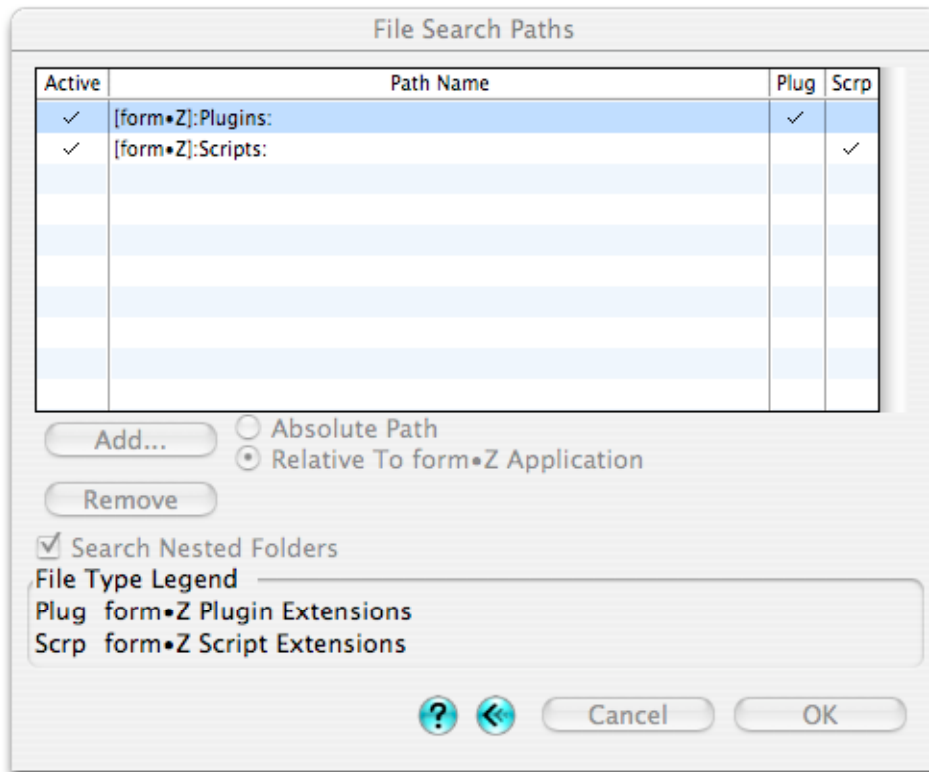

Documentation for the plugins contained in this product will be placed in the Pylon Technical folder.

## 4 Installation Troubleshooting

If your plugins do not load, check the following:

- Make sure that you selected the proper formZ application folder to install into. If not, delete the improperly placed 'Pylon Technical' folder, then reinstall. The proper path for Pylon products is: /formZ/formZ yourCurrentVersion/Plugins/Pylon Technical/
- Make sure your license file is located inside the folder 'Pylon Technical'.
- In formZ, go to Extensions > Extensions Manager... Ensure that each of your lighting plugins is active (checked).

- In formZ, go to Extensions > Extensions Manager... Click on the 'Search Paths' Button. Make sure formZ is configured to search for plugins inside your Plugins folder as follows:

## 5 Bug Reports and suggestions

If you need help, find a bug, or have a suggestion, please email [support@pylontechnical.com](mailto:support@pylontechnical.com)
